

## Product Description

HDMI is a proprietary audio/video interface for transferring uncompressed video data and compressed or uncompressed digital audio data from an HDMI-compliant source device, such as a display controller, to a compatible computer monitor, video projector, digital television, or digital audio device. HDMI is a digital replacement for analog video standards.

## Features

- Transmission: Transmit HDMI signals at longer distances with no latency. It eliminates any EMI/RFI line noise that can interfere with your audio/video signal and disrupt the performance of your connected equipment
- Picture Quality: Delivers ultra HD picture quality at resolutions up to 3840 x 2160 (4K x 2K) @ 60 Hz
- Supports latest HDMI standards, including 4:4:4 subsampling for HDR televisions
- Power Consumption: Proven 850nm VCSEL array technology enabling low power consumption
- Quality: Much thinner and lighter than copper cable
- Ease of Use: Plug-and-play cable, draws power from a connected device
- Cable Length: 30M/40M/50M/60M/70M

Model	HDMI 2.0 AOC Cable	Brand name:	TRICOM
Resolution	HD 4K60@Hz	Bandwidth	18Gbps
Conductor:	Optical Fiber Active Optical Cable	OD:	4.8mm
