

8K HDMI SPLITTER 1X2 (8K@60Hz)

Product Description

Introducing the TRICOM-8K-1x2 HDMI Splitter, the 8K HDMI 1x2 Splitter that takes your viewing and gaming experience to the next level. With HDMI 2.1 and HDCP 2.3 compliance, this splitter supports the latest technologies for video and content protection, ensuring that your content is delivered with the highest quality.

For video enthusiasts, the TRICOM-8K-1x2 HDMI Splitter supports a range of HDR formats, including HDR, HDR10, HDR10+, Dolby Vision, and HLG pass through. This allows you to enjoy a wider range of colors and contrast for a more immersive viewing experience.

Finally, for gamers, the TRICOM-8K-1x2 HDMI Splitter supports 4K resolution at 120Hz, providing the highest level of detail and fluidity for a smooth and immersive gaming experience. In addition, this splitter supports VRR, FVA, and ALLM, allowing you to enjoy smoother, more responsive gameplay on compatible devices. Whether you're playing competitively or just looking to get the most out of your favorite games, this splitter ensures that you can enjoy high-resolution graphics at high frame rates for the ultimate gaming experience.
